

Football offseason workout

Since we are unable to get together in order to prepare for the upcoming season it is up to you to workout on your own and get yourself ready for the season ahead. You should do each of these workouts 3 times a week. You do not have to do them in the order they are listed but you should do all of the exercises listed. The Strength portion of the workout is designed to be done without weights, but if you have weights that you include you are encouraged to do so. For the agility part of the workout you will need to find an open area preferably outside that is about 10 yards except for the 40 yard dash.
