

CAMS Summer Reading Incentive Reward

Any student who completes the summer reading incentive will have the opportunity to go to **THUNDER VALLEY** in Salem, VA when school resumes.

Official date is to be determined.

Because we live in a time of uncertainty, if the current pandemic prevents an out-of-school field trip, students who complete the summer reading incentive will receive an alternative reward at CAMS.

Botetourt County Summer Reading
Middle School Suggestions 2020

All Botetourt County Schools middle school students are encouraged to participate in the school wide summer reading program. Throughout the school year, students are constantly presented with the opportunity to connect reading and learning. Through the summer reading incentive program, we wish to promote the idea that reading can also be for fun and personal enjoyment.

Students **may choose any book** that they have interest in reading over the summer. A resource list of possible reading choices can be found on the following websites: Children's Book Council and Virginia Readers' Choice (Virginia State Reading Association). We hope all students will find something that sparks a desire to read this summer. **We do not know when the area public libraries will be open, but many have electronic books that can be checked out remotely. Most of the titles can also be found in the Kindle and Nook libraries, as well as the iTunes bookstore.**

Parents and guardians are asked to work with the student to select readings that are appropriate to the reader's interest, maturity, and reading skills.
